1st Inspiring Quotes

Believe in yourself and all that you are.
Know that there is something inside you
that is greater than any obstacle.

Python Programming.

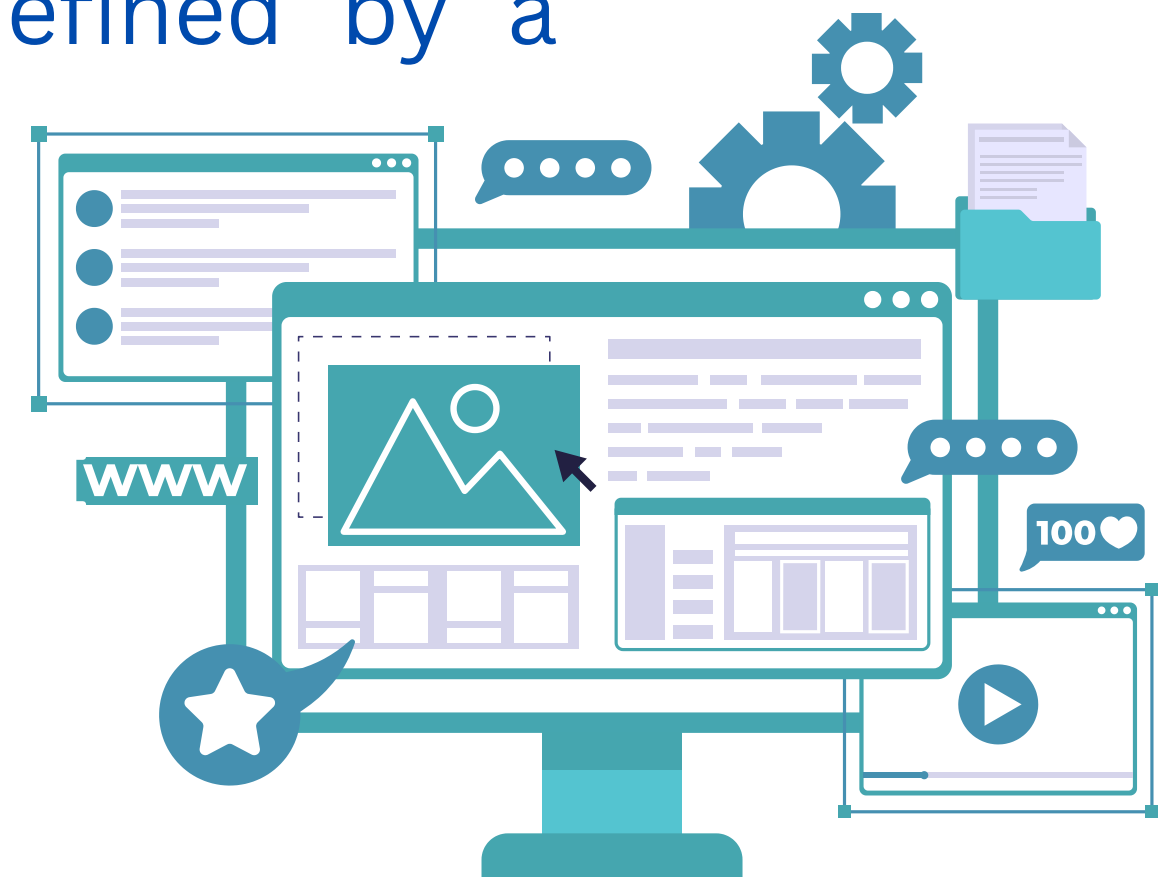

TASK LIST

Tasks may include developing applications, writing scripts for data analysis, building web applications with frameworks like Django, or solving algorithmic challenges. The goal is to gain practical experience and showcase Python skills for future career opportunities.

TASK 1

FIBONACCI GENERATOR

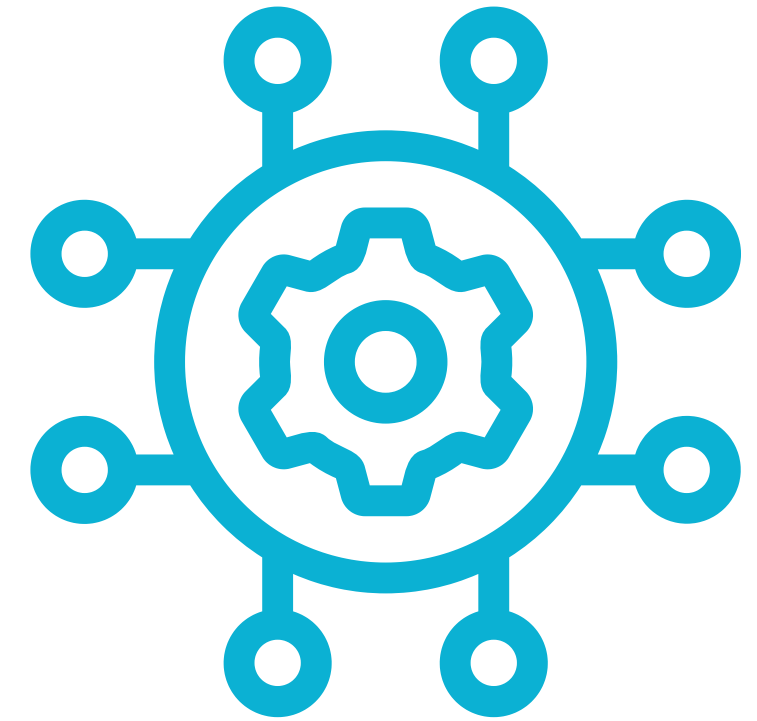

The Fibonacci series is a sequence where each number is the sum of the two preceding numbers, defined by a mathematical recurrence relationship.

TASK 2

VOICE ASSISTANT

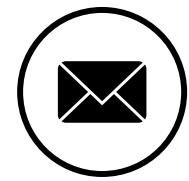

Create a custom voice assistant using Python to personalize and automate tasks according to your needs. Python's versatility makes it an excellent choice for scripting and development, allowing you to build a voice assistant that can compete with the likes of Siri, Alexa, and Google Assistant.

SUBMISSION DETAILS

You will have to provide task submission for each task(weekly task)

It's essential for each intern to complete all the assigned tasks. If someone completes only one or two tasks, their internship may be considered incomplete or certificate will not be provided, So Please make sure to fulfill all the tasks assigned to you and submit in Submission form to ensure a successful Internship.
